NOT PICKED BY MONKEYS

In light of the recent scandal about Monkey Labour and many big retailers taking out some coconut product brands from their ranges, we'd like to emphasize that our coconut products are Not Picked by Monkeys.

Following PETA Asia's investigation, more than 25,000 stores will no longer purchase any coconut products derived from Thailand monkey labour.

That is why, we are proud to disclose none of our products originate from such practices, and we appreciate ethical supply chain networking. We signed the petition to stop supporting this cruel industry by obtaining their coconuts from companies that don't use monkeys.

Shout out to the ethical companies out there, give us a shout back for business cooperation.
